

### Route Types

**Frequent**

Trunk routes run earlier, later and more often along major streets.

**Standard**

Routes connect urban and suburban areas to transit centers, typically every 30-60 minutes (see schedules).

**Express**

Faster and more direct AM/PM service connects major destinations with fewer intermediate stops.

**Seasonal**

Local service only operates for a few months every year.

**Link T Line**

Service operated by Sound Transit runs frequently through downtown Tacoma.
